

Highway 420 Environmental Assessment Proposal

Region of Niagara, Ontario

Client:

Ontario Ministry
of Transportation

Services:

- Environmental Assessment
- Travel Forecasting

iTRANS staff were responsible for establishing the need and justification for the long-range, provincial highway network in Niagara Region. Highways that were studied included the QEW, Highway 420, Highway 405, and Highway 406. In addition, a detailed analysis was undertaken of international auto and truck traffic across the Niagara River.
