

# Mississauga Public Garden

Mississauga, Ontario

Client:  
City of Mississauga

Services:

- Environmental Assessment
- Traffic Impact
- Parking

iTRANS was responsible for transportation planning in a multi-disciplinary team that prepared an Environmental Assessment for a major new public garden in the Credit River Valley in the City of Mississauga.

The EA study considered internal vehicular and pedestrian circulation, transit service and access, auto access from adjacent arterial roads, seasonal parking demands, potential impacts on adjacent neighbourhoods, and mitigation measures.

The project was approved by the Minister of the Environment and Energy.
