

# Northwest Arterial Environmental Assessment

## Thunder Bay, Ontario

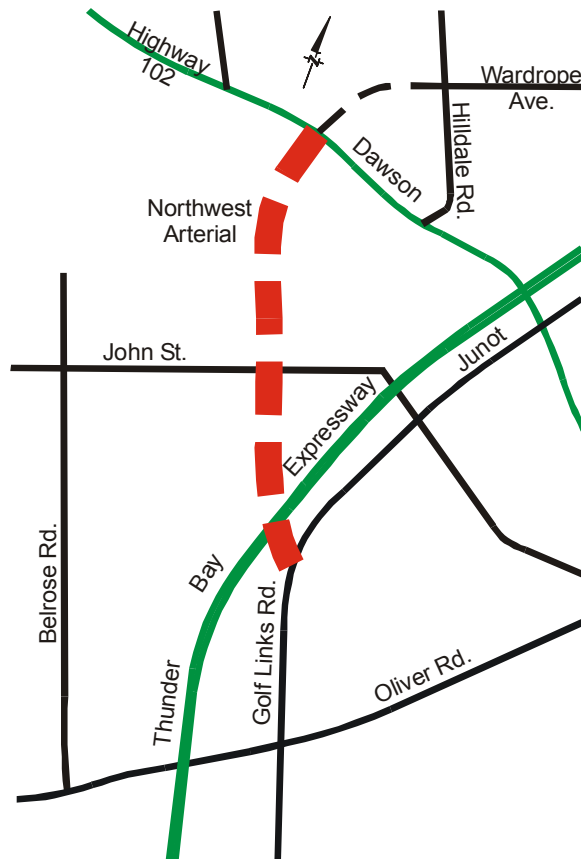

---

Client:  
Thunder Bay

---

Services:

- Environmental Assessment
- Highway Engineering
- Public Consultation

iTRANS staff conducted a Class Environmental Assessment Study for a proposed new 4-lane arterial road which would involve a bridge crossing of McIntyre Creek and a new interchange on the Trans Canada Highway. The high level of public interest required an extensive public consultation program, resulting in City Council approval for the project.
