

Winston Churchill Boulevard

Mississauga, Ontario

Client:

Churchill
Meadows Group /
City of
Mississauga

Services:

- Functional
Design

iTRANS completed the functional design of the widening of Winston Churchill Boulevard from 5 lanes to 7 lanes between Highway 403 and Erin Centre Boulevard in the City of Mississauga. The design addressed issues of lane continuity, intersection configuration, and accommodation of new intersections. The design also involved the removal of temporary curbing, and the conversion of a grass median rural drainage to curb and gutter.
